REQUEST FOR CERTIFICATION OF CORRECTION

Pursuant to the provisions of 37 C.F.R. 1.323, please enter the attached Certificate of Correction. These changes merely correct obvious mistakes and do not add new matter to the disclosure or require that reexamination be made of the original subject matter.

In view of the above, issuance of the Certificate of Correction is respectfully requested.

The errors appear to be due to an incorrect scanning/OCR of Applicant's Amendment dated March 24, 2003, and accordingly believed to be as a result of error by the PTO. This can be verified, for example, by comparing the language of such amendment with the text of the patent as issued. It seems that the scanning/printing process inadvertently cut off text at the end of some lines, and interjected random errors at other locations. Nonetheless, should the PTO determine that any fees are due, please charge the same to deposit account no. 501-244.
